DIAGRAMS — R080 Timer MEGA

Schemi Mermaid estratti direttamente dal codice (`include/constants.h` , `include/variables.h` , `include/functions/*.h` , `src/main.cpp`).

> Per visualizzare i diagrammi: aprire questo file in un viewer Markdown con supporto Mermaid (VS Code + estensione *Markdown Preview Mermaid Support*, GitHub, GitLab, Obsidian, ecc.).

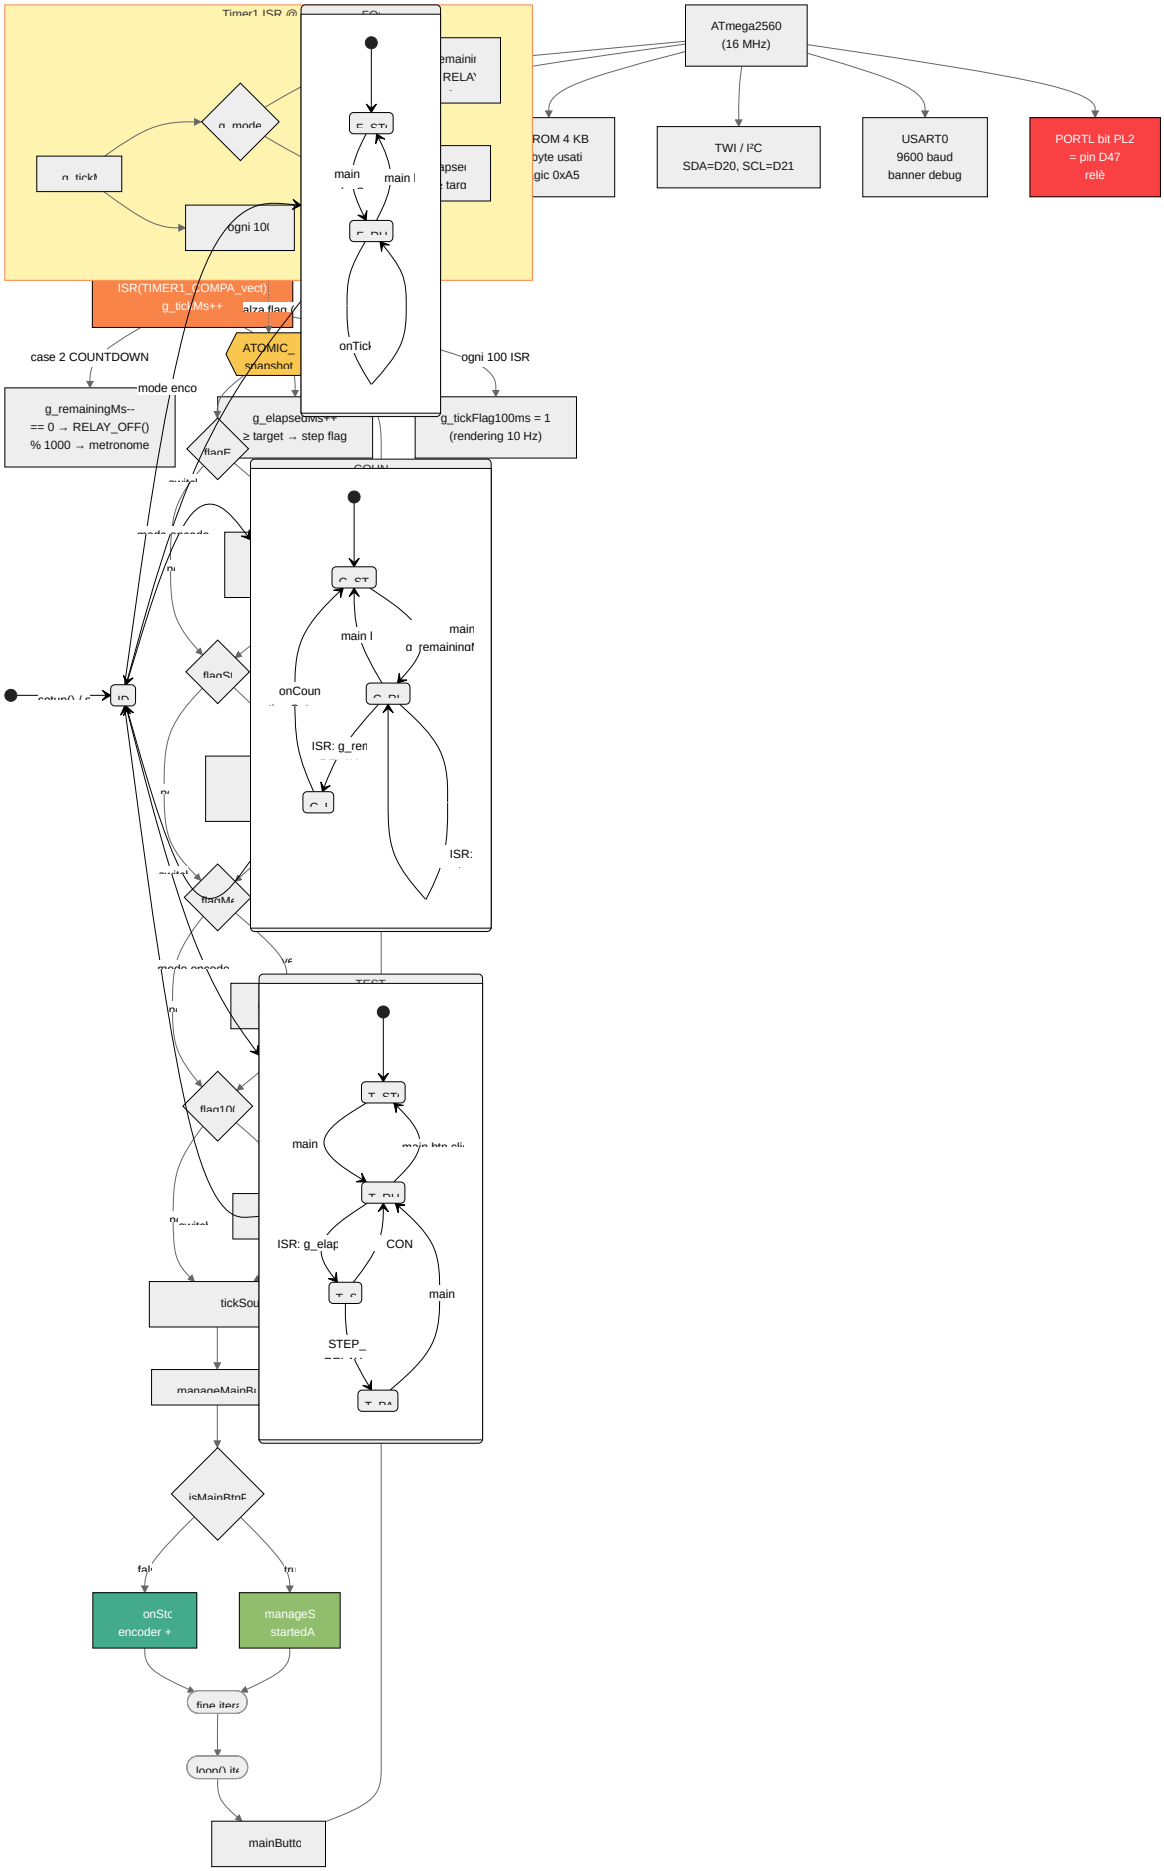

---

1. Collegamenti hardware (vista a stella)

---

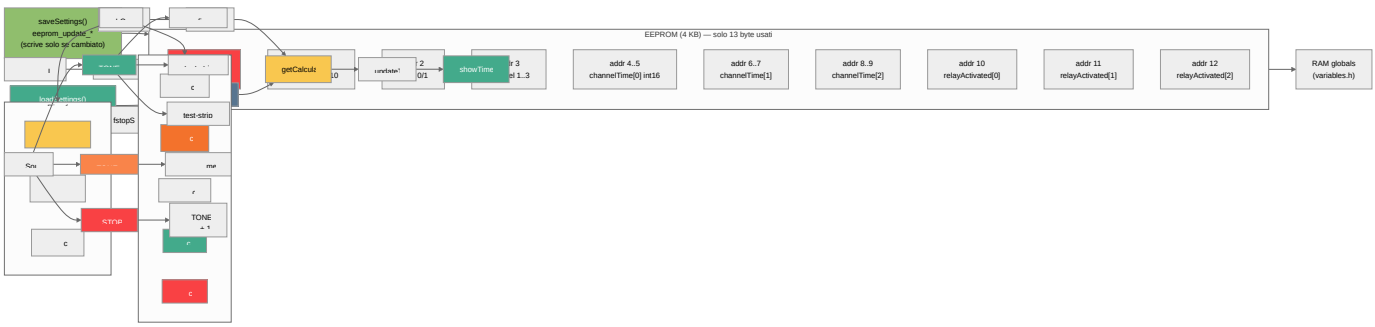

2. Risorse interne MCU

3. Main loop — flusso `loop()` + ISR

4. Stati delle modalità operative

5. Mappa dati EEPROM (13 byte, magic `0xA5`)

6. Pipeline F-Stop (precisione e calcolo tempo)

7. Layout LCD 16×2 — slot di rendering

8. Frequenze audio e sequenze
